

Fraud Programme Maturity Review

Prepared for Bradesco · 2025 review period · Third-party advisory firm (hypothetical)

ILLUSTRATIVE DEMO DOCUMENT. Fictional scenario created to demonstrate generating a framework from an existing assessment.

Scores use a 0–4 scale: 0 Absent, 1 Initial, 2 Developing, 3 Established, 4 Leading.

Domain 1 — Fraud Governance & Oversight

Ref	Control	Score	Maturity	Comment
GOV-01	Board and executive oversight of fraud risk	3	Established	Quarterly fraud report to the Risk Committee; no Board-level appetite statement.
GOV-02	Fraud policy framework and ownership	3	Established	Policy approved and reviewed annually; ownership split between two units.
GOV-03	Fraud risk appetite and loss targets	2	Developing	Loss targets exist for cards only; not cascaded to channels.
GOV-04	Fraud awareness and training programme	3	Established	Mandatory annual training; no role-based modules for front line.
GOV-05	Coordination between fraud, cyber and AML	2	Developing	Ad hoc meetings; no shared case taxonomy.

Domain 2 — Customer Authentication & Onboarding

Ref	Control	Score	Maturity	Comment
AUT-01	Digital identity verification at onboarding	3	Established	Document and biometric checks on mobile; branch process manual.
AUT-02	Strong customer authentication for digital channels	4	Leading	MFA enforced on app and web; step-up for high-risk actions.
AUT-03	Device and session risk assessment	3	Established	Device fingerprinting in place; limited behavioural signals.
AUT-04	Account recovery and credential reset controls	2	Developing	Call-centre reset relies on knowledge questions.
AUT-05	Mule and synthetic identity screening	2	Developing	Rules-based checks; no network analysis.

Domain 3 — Transaction Monitoring & Decisioning

Ref	Control	Score	Maturity	Comment
MON-01	Real-time monitoring of instant payments	4	Leading	Inline scoring for instant payments with sub-second decision.
MON-02	Card transaction fraud scoring	4	Leading	Vendor scoring engine with weekly rule tuning.
MON-03	Rule lifecycle and model governance	3	Established	Change control exists; back-testing is irregular.
MON-04	False positive management and customer friction	2	Developing	False positive rate tracked monthly; no target.
MON-05	Behavioural analytics and machine learning use	2	Developing	Pilot models in two portfolios; not in production.

Domain 4 — Case Management & Investigations

Ref	Control	Score	Maturity	Comment
INV-01	Alert triage and queue management	3	Established	Prioritised queues with SLA; manual hand-offs between teams.
INV-02	Investigation procedures and evidence handling	3	Established	Standard procedures; evidence stored in shared drives.
INV-03	Customer notification and recovery processes	3	Established	Documented notification flow; recovery rates not measured.

INV-04	Law enforcement and industry collaboration	2	Developing	Reactive cooperation; limited intelligence sharing.
INV-05	Root-cause analysis and lessons learned	2	Developing	Post-incident reviews for major events only.

Domain 5 — Data, Technology & Reporting

Ref	Control	Score	Maturity	Comment
TEC-01	Fraud data platform and data quality	3	Established	Central repository with daily loads; data quality checks partial.
TEC-02	Integration across channels and core systems	3	Established	Main channels integrated; legacy platforms feed by batch.
TEC-03	Fraud management information and KPIs	2	Developing	Monthly pack with loss and alert volumes; no forward indicators.
TEC-04	Technology resilience of fraud controls	3	Established	Active-passive setup; failover tested yearly.
TEC-05	Independent testing and assurance	2	Developing	Internal audit review every two years.

Domain 6 — Third Parties & Emerging Channels

Ref	Control	Score	Maturity	Comment
TPE-01	Fraud due diligence on vendors and partners	3	Established	Questionnaire at onboarding; no periodic reassessment.
TPE-02	Open finance and API exposure controls	3	Established	Consent management and rate limiting on APIs.
TPE-03	Merchant and acquiring fraud controls	3	Established	Merchant risk scoring with chargeback monitoring.
TPE-04	Scam and social-engineering countermeasures	3	Established	Customer alerts and in-app warnings; limited payee verification.
TPE-05	Horizon scanning of emerging fraud typologies	2	Developing	Informal tracking; no formal threat intelligence function.
